Loïc Boisdon

Internship in Embedded Electrical and Electronic Systems (S3E) from April 03 to July 28, 2023

Attracted by the field of electronics since the second, I joined the CESI engineering school in S3E specialty.

Today, I am looking for a 2nd year internship with the ambition to be able to continue my studies on a work-study program.

Education

Preparatory class on-board electrical and electronic systems

Since 2021 **CESI** Labège, France

General baccalaureate

2021 **Le Ferradou** Blagnac, France

- Mathématiques, Numerical and Computer Sciences specialties
- Mention Bien

BIA (Aeronautical Initiation Certificate)

2019 **Le Ferradou** Blagnac, France

- Mention Bien

Work experience

Seasonal work

From 2021 to 2022 **Carrefour contact** Saint-Sauveur, France

Versatile employee

Checkout, shelving, parcel relay...

Observation internship (2nd class)

2019 **LAAS-CNRS** Toulouse, France

Laboratory of Analysis and Architecture of Systems (LAAS)

Robotics and autonomous systems

Observation internship (3rd class)

2018 **MAPEI** Saint-Alban, France

Building glues and chemicals

Discovery internship (4th class)

2017 **DRALAM** Saint-Sauveur, France

Design and production of electronic and automatic systems

Skills

Electronic

Soldering, wrapping, electronic circuit design, analog
